SUMMARY

Results-driven AI/ML Engineer with 5+ years of professional experience spanning Agentic AI development, Generative AI, Openclaw, AWS Kiro and full-stack Python engineering. Specialized in designing and deploying multi-agent orchestration platforms using LangGraph and AWS Bedrock, with deep expertise in RAG pipelines, vector search, and intelligent document processing. Proven track record in solution architecture and client-facing consulting, translating complex business requirements into scalable, production-grade AI systems. Adept at cross-functional collaboration, technical documentation, and stakeholder engagement across enterprise environments.

SKILLS

Technical Skills

- | | |
|-------------------------|-----------------------------|
| ▸ Agentic AI | ▸ Generative AI |
| ▸ LLMs | ▸ LangGraph |
| ▸ LangChain | ▸ Python |
| ▸ FastAPI | ▸ SQL |
| ▸ AWS Bedrock | ▸ AWS Kiro |
| ▸ AWS (EC2, S3, Lambda) | ▸ Azure OpenAI |
| ▸ Azure AI Services | ▸ Azure Functions |
| ▸ OpenClaw | ▸ Multi-Agent Orchestration |
| ▸ Vector Databases | ▸ RAG |
| ▸ Prompt Engineering | ▸ OCR & Document AI |
| ▸ Docker | ▸ CI/CD & Deployments |
| ▸ Microservices | ▸ REST APIs |

Professional Skills

- | | |
|--------------------------|----------------------------------|
| ▸ Project Management | ▸ Solution Design |
| ▸ Client Communication | ▸ Technical Documentation |
| ▸ Stakeholder Management | ▸ Cross-functional Collaboration |

EXPERIENCE

Agentic AI Engineer

May 2024 – Present

Annular Technologies · Chennai, India

- Architected and deployed enterprise-grade Agentic AI platforms leveraging LangGraph and AWS Bedrock, enabling autonomous multi-step decision-making workflows for 3+ client organizations.
- Engineered intelligent document processing pipelines achieving 94% extraction accuracy across invoices, contracts, and compliance documents using OCR, Document AI, and AI-assisted validation.
- Implemented production-ready RAG pipelines with vector search (FAISS, Pinecone), reducing information retrieval latency by 60% while maintaining 92% answer relevance scores.
- Designed and orchestrated multi-agent workflows for enterprise automation, integrating tool-calling agents, planning agents, and specialized domain agents into cohesive systems.
- Improved extraction accuracy by 35% through iterative AI-assisted validation loops combining LLM reasoning with rule-based post-processing.

- Developed document classification models supporting 15+ document types with 96% classification accuracy, streamlining intake workflows.
- Collaborated closely with product and engineering teams to define AI feature roadmaps, translate business requirements into technical specifications, and deliver solutions within sprint timelines.

Technical Consultant

Oct 2022 – Nov 2023

Reveille Technologies · Chennai, India

- Conducted end-to-end requirements gathering sessions with enterprise clients, mapping business processes to technical solution architectures for 10+ implementation projects.
- Designed scalable solution blueprints aligning client infrastructure with product capabilities, reducing implementation timelines by 25%.
- Led client engagement workshops and product demonstrations, translating complex technical concepts into actionable insights for non-technical stakeholders.
- Provided post-deployment support, troubleshooting production issues and coordinating with engineering teams to deliver hotfixes within SLA targets.

Technical Support Representative

Nov 2019 – Dec 2021

SpiceJet Ltd · Chennai, India

- Delivered Tier 1/Tier 2 technical support for airline booking and reservation systems, resolving 50+ daily support tickets with a 95% first-contact resolution rate.
- Diagnosed and troubleshooted system-level issues across booking platforms, payment gateways, and internal tools, reducing average resolution time by 30%.
- Provided customer assistance across multiple communication channels (phone, email, chat), consistently maintaining a 4.7/5.0 customer satisfaction rating.
- Identified recurring process bottlenecks and proposed workflow improvements, contributing to a 20% reduction in ticket escalation rates.
- Collaborated with cross-functional teams including IT operations and product teams to escalate, track, and resolve complex technical incidents.

EDUCATION

Master of Computer Applications

2026

Chandigarh University · Punjab, India

Bachelor of Science – Computer Technology

2018

Kongu Arts and Science College · Erode, India
